My ITP Score

Scoring

60+ points - You are at high risk of being an ID theft victim. We recommend you use the attached check list to reduce your vulnerability.

30-60 points - Your odds of being victimized are about average. Higher if you have good credit. Use the attached check list to identify additional changes that will reduce your risk.

0-30 points - Congratulations. You have a high "IQ." Keep up the good work, but check the attached list for anything you may have overlooked.

Power Against Identity Theft

Minimize Your ID Theft Risk

- 1. Mail bills to be paid at the Post Office, not in your mailbox or in street corner postal boxes. Consider using automated payment plans.**
- 2. Have paychecks, benefit and pension checks direct deposited to your account. Ask the IRS, insurance companies and others to send refund checks electronically.**
- 3. Ask your bank or credit union to receive your box of new checks, rather than have them mailed to your home.**
- 4. Do NOT have your Social Security Number or birth date printed on your checks.**
- 5. Call your bank and credit card customer service and ask to "opt out" of ALL marketing programs, including 'convenience' checks mailings.**
- 6. Carry sensitive information in a close fitting pouch or in your front pocket, not in your purse or wallet, including driver's license, credit & debit cards, checks, car registration and anything with your Social Security Number (make a copy of your Medicare card and black out all but the last four digits.)**
- 7. Don't carry your checkbook in public. Carry only the checks you need.**
- 8. Copy the contents (back and front) of your wallet.**
- 9. If possible remove anything from your wallet containing your SSN, including your Social Security card, Medicare card, military ID card. If your SSN is on your Driver's License – get a new license.**

- 10. Check your earnings record at least annually and more often if you suspect your SSN has been compromised (it's free and there is no limit to how often you may request it.) Contact the Social Security Administration (see Item 4 of Resources) and ask for Form SSA-7004, Request for Earnings and Benefit Estimate Statement.**
- 11. Do not keep your purse, briefcase, checkbook, registration, insurance card, or other identifying information in your car. Carry them in a secure manner on your person. Do not leave your car unlocked or unattended.**
- 12. Keep your financial and tax records in locked files in your home or office.**
- 13. Don't give any part of your Social Security, credit card or bank account numbers over the phone, e-mail or Internet, unless you have initiated the contact to a verifiable company or financial institution.**
- 14. Request a free copy of your credit report once a year.**
- 15. Notify the credit reporting agencies of the death of a relative or friend to block the misuse of the deceased person's credit.**
- 16. Call the Credit Card Offer Opt Out Line to reduce number of credit card solicitations you receive. (1-888-567-8688 or www.optoutprescreen.com)**
- 17. Shred pre-approved credit card offers, convenience checks and any document containing sensitive information - with a crosscut shredder.**

- 18. Don't respond to e-mails asking to submit personal data. The message may include fancy graphics, trademark symbols and an authentic-looking e-mail address, but that can be faked. Here are ways to tell:**

The message tries to scare you saying your account needs to be verified/updated.

The message threatens negative action if you fail to act immediately.

The message asks you to click on a link or to submit information through a button. Legitimate emails will not contain a link, but will ask you to close out the message, open the company's Internet Web site, and use your name and password to update the required information. Never click on a link provided in the message!

The message appears to come from a company with whom you do business, but it calls you "Dear Customer" instead of your name.

- 19. Use a firewall program if you use a high-speed connection like cable, DSL or T-1, which connects your computer 24 hours a day. A firewall may stop hackers from accessing your computer. Without it, they can access personal information and use it to commit crimes.**
- 20. Use a secure browser - software that encrypts or scrambles information you send over the Internet - to guard the security of online transactions. Be sure your browser has up-to-date encryption capabilities by using the latest version available from the manufacturer.**

If Your Identity Is Stolen

- 1. Resolving the consequences of identity theft is left largely to victims. Act quickly and assertively, and keep records/copies of all contacts and reports.**
- 2. File a report with your police/sheriff and get a copy of the report for the credit agencies, banks and credit card companies. Or request and complete the ID Theft Affidavit from the Federal Trade Commission.**
- 3. Cancel each credit card. If you report the loss before the cards are used, you are not responsible for any unauthorized charges. Beware of callers selling credit card protection – you don't need this! Carefully monitor your credit card statements for evidence of fraudulent activity.**
- 4. Contact your financial institution and cancel all accounts and PIN numbers. Stop payments on outstanding checks and complete "affidavits of forgery" on unauthorized checks.**
- 5. Report the theft to one of the fraud units of the credit reporting agencies. That agency will notify the other two of the possible fraud. Request the credit reporting agencies to flag your credit file for fraud. Add a victim's statement to your report, such as: "My identification has been used to apply for fraudulent credit. Contact me at (your telephone number or address) to verify ALL applications."**
- 6. Consider subscribing to a credit report monitoring service (available from the credit reporting agencies) that includes fraud-watch e-mails and frequent credit reports.**
- 7. Ask utility companies (especially cellular service) to watch for anyone ordering services in your name. If you have trouble with falsified accounts, contact the Public Utility Commission.**

You are not responsible for losses from ID theft. Your credit should not be permanently affected. No legal action should be taken. Cooperate, but don't be coerced into paying a fraudulent debt.
